📁 Professional Experience

Python Developer
Altos Technologies

2024 – present
chennai

CRM Backend Development

- Customer Relationship Management is a comprehensive solution consisting of two modules: Admin and Insurance Agent.
- Admins can add agents to a campaign and allocate a list of agents and users. Admins also have the power to remove users and agents.
- The Agent module allows the addition of client agents and also facilitates adding clients throughout the campaign, along with daily report submissions.

HRMS Login and Authentication System

- Built and improved **secure login mechanisms** for the **HRMS (Human Resource Management System)**.
- Implemented **multi-user authentication, session handling, and password encryption** to enhance security.
- Integrated **role-based dashboards**, allowing HR professionals and employees to access relevant modules based on their roles.

Hospital Management System

- Contributed to **Hospital Management System frontend updates**, ensuring a **responsive and user-friendly UI** using **Bootstrap**.
